Connect and K'nex

at the Library

We would like to do a couple activities at the library this summer for grades 4-6th.

Our ideas at this point are a K'nex challenge where teams would create something with K'nex that relates in some way to a book at the library.

We have also considered a Juvenile "Jeopardy-style" trivia event.

If you would be interested in attending an event like this please sign up at the library and indicate whether you would most likely attend a Daytime or Evening event.
